www.victoriahealthcooperative.ca Serving our Member-Owners and Community.

The Co-op Health Centre.

We were happy to divest ourselves of this activity at the end of 2017. We are very grateful to the community-focused members who subsidized the doctors' work-place for seven years. These generous members were instrumental in enabling the Health Centre to provide essential medical and health services to patients for many years.

Sadly the restrictions on advertising meant that many of the patients did not, and still do not, understand the work (largely volunteer) of the Victoria Health Co-op in providing services in that location.

We are grateful to the VHC member-owners who tried hard to explain the role of the co-op to patients at the clinic. We have repaid over 50% of our debt to them and are working hard to repay the balance.

The partnership agreement with the new owner did not translate into action.
